SUMMARY

An experienced IT Support professional with over 6 years of expertise in providing technical support, managing IT infrastructure, and ensuring seamless operations of corporate IT systems. Currently a 7th-semester Informatics Engineering student at Universitas Indraprasta PGRI. Proficient in web development (Frontend & Backend), troubleshooting hardware/software, network management, and delivering end-user support. Demonstrates strong communication skills, a proactive attitude, and the ability to excel in high-pressure environments.

EDUCATION

Universitas Indraprasta PGRI

Undergraduate Student in Informatics Engineering (Teknik Informatika) | GPA: 3.01/4.00

2021 – 2026 (Expected)

Core Courses: Computer Networks, Operating Systems, Information Security, Database Systems, and Programming Fundamentals. Equipped with strong foundational skills in network management, system troubleshooting, and IT system security.

WORK EXPERIENCES

IT Executive | Acorn Marketing & Research Consultants

Jakarta | Dec 2024 – Present

- Comprehensive IT Support:** Provided end-to-end IT support encompassing network infrastructure, server administration, hardware, and software.
- Network & Server Administration:** Managed and maintained robust network infrastructures and administered server systems (configuration, monitoring, troubleshooting) to ensure optimal performance and uptime.
- Troubleshooting & Documentation:** Performed expert diagnosis and resolution of complex hardware/software issues, and maintained accurate project documentation and operational procedures.
- IT Project Coordination:** Actively participated in various IT project phases, from implementation to ongoing maintenance, ensuring smooth workflows.

IT Support Specialist | PT Mitra Infoparama

Jakarta | Dec 2019 – Dec 2024

- Enhanced Reporting Efficiency:** Designed and implemented a streamlined activity reporting system, reducing reporting time by 40% and improving operational transparency.
- Reduced Technology Issues:** Developed and deployed a comprehensive troubleshooting framework, resulting in a 60% decrease in recurring technical issues within two years.
- Technical Mentorship & Expertise:** Conducted targeted training programs for technicians, increasing first-time resolution rates to 85% and standardizing troubleshooting practices.
- Strategic Collaboration with Lenovo:** Partnered with Lenovo on device testing and system performance enhancements, contributing to improved hardware reliability and user satisfaction.

Owner | Galtech (Laptop & Spare Parts Business)

Jakarta | Jan 2023 – Present

- Business & Inventory Management:** Established and managed a thriving spare parts business specializing in Lenovo and Dell laptop components, ensuring consistent growth, optimal stock levels, and supply chain efficiency.

- **Technical Consultation:** Provided expert recommendations to customers on selecting and installing compatible components, leveraging in-depth knowledge of major hardware product lines.
- **Web Development Integration (New Skill):** Developing and maintaining internal web features and interface optimizations using JavaScript, Python, and MySQL to streamline product tracking and sales data archiving.

SKILLS

Technical Skills:

- Frontend Development: JavaScript, React, Tailwind CSS, HTML5, CSS3, Framer Motion
- Backend Development & Databases: Python, MySQL, Node.js, Database Systems
- IT Infrastructure & Support: Network Management, Server Administration, Hardware & Software Troubleshooting, System Optimization
- Product Specialization: Lenovo & Dell Hardware Systems Specialist

Professional Skills:

- Analytical thinking, structured problem-solving, and meticulous attention to detail.
- Effective technical communication and cross-functional collaboration with stakeholders.
- Leadership, technical team mentoring, and high adaptability in fast-paced environments.
- Proactive prioritization, time management, and robust multitasking abilities.
